May 23, 1957

Dear Joshua:

I am a new member of the Academy myself and am still unfamiliar with the inner workings of the Section of Pathology and Bacteriology.

I have been trying to get hold of Paul Cannon who was Chairman of our section for several years, but he is out of town. That is the reason I have delayed my reply to your letter. When he returns, I shall ask him what he has to say about your question.

My own feeling is that you would be better off in Botany with the rest of the geneticists. Besides, might they not be a little offended if you did not go into their section at this time? It is my understanding that a member can change from one section to another whenever he wants to.

When Dr. Cannon returns, I shall show him your letter and my reply. If he has any other ideas on the matter, I shall write to you again.

With warm personal regards, I am

Very sincerely yours,

  
C. Phillip Miller, M. D.
